The rain fell for a few minutes Saturday, but that didn't dampen the crowds' enthusiasm as the Waveland Civic Assoc. and the Krewe of Blarney Halfast Walkin' Klub conducted their respective annual St. Patrick's parades.

"The weather's really just about perfect," Waveland Mayor Mike Smith said Saturday. "The turn-out today is really even better than I expected."

Float riders in the Waveland

parade throw cabbages, carrots, oranges and other produce -- along with more traditional parade fare like beads and doubloons -- to the spectators.

WCA's 2018 Grand Marshal David Hilbert led the way in the 53rd annual, along with the 2018 Colleen, Kaylee Hinkle.

In Pass Christian, Grand Marshal Kent G. Nicaud led the Krewe of Blarney Halfast Walkin' Klub's 23rd annual parade, with Jillian Spayde serving as the 2018 Colleen.

The crew began the parade with a toast to Mayor Chipper McDermott at Pass Christian City Hall; and made several "toasting stops" along the route.

For the second year in a row, the Bay Ratz Marching Battery performed along the route this year.

"This is a really great parade," one of the Bay Ratz moms said Saturday. "I thought it was wonderful, really great. The rain came for just a minute, but not long enough to really do anything. It's a lot longer parade than you'd think, and people were lined up up and down the route."

Suspects falling like 'dominos' in drug and stolen weapons case

BY GEOFF BELCHER
NEWS EDITOR

A drug- and stolen- weapons bust in Bay St. Louis last week has led to at least four more arrests in the days since, helping investigators solve more than 18 open burglary cases throughout Hancock County and Pass Christian.

Hancock Sheriff Ricky Adam likened the situation to a game of "dominos," with one suspect falling after another.

Hancock County Sheriff's

Narcotics Division agents last week arrested Rico Laneaux, a 36-year-old ex-con, who had been wanted on drug charges.

"Once they found Rico, they established probable cause to order search warrants for that address," Sheriff's Chief Investigator Glenn Grannan said Tuesday.

Evidence at the scene led investigators last week to pick up Misty Moran, Schman Ladner and Justin Fontenot on several charges, including pos-

Supers approve hiring Casey Favre as director of inmate health services

BY CASSANDRA FAVRE
STAFF WRITER

The Hancock County Board of Supervisors on Monday unanimously approved a motion to hire Casey Favre -- with an annual salary of \$115,000 -- to be the director of inmate health services for the Hancock County Sheriff's Office.

At the March 5 meeting, the board put off voting on the motion regarding Favre until further discussion about his salary.

At the March 5 meeting, Hancock County Sheriff Ricky Adam asked the board to approve Favre's salary at \$123,000.

Board president Blaine LaFontaine said Monday the board had two weeks to discuss

comparable salary ranges and that Favre "agreed to a reduced rate."

LaFontaine also addressed some of the other concerns the board had.

One stipulation is that the cost for inmate health services not exceed \$385,000 a fiscal

Bay man jailed for kidnapping and assault

BY GEOFF BELCHER
NEWS EDITOR

A Bay St. Louis man was arrested on Saturday in Gulfport for allegedly assaulting and kidnapping his girlfriend, Harrison County Sheriff Troy Peterson said in a press release.

Hubert Oneal Fulton, Jr. was jailed on one felony charge of kidnapping, Peterson said, and was also charged with simple domestic assault.

Harrison County deputies responded to a domestic assault Saturday on Acron Drive in Gulfport, Peterson said.

"Upon arrival, a witness stated Fulton forced his girlfriend into his vehicle by shoving her and pulling her hair," according to the release. "Once inside of the vehicle, he left the scene, but the girlfriend was able to text the witness and advised (that) Fulton had stopped for gas at the

Love's located at County Farm Road and I-10. Deputies responded to the area and were able to conduct a traffic stop on Fulton's vehicle at the 20-mile marker west bound."

Fulton was booked at the Harrison County Adult Detention Facility on a \$200,000 bond imposed by Justice Court Judge Brandon Ladner, Peterson said.

Our Lady Academy appoints *new* principal

SEA COAST ECHO
n March 20, 2018, Very Reverend Michael P. O'Connor, Pastor of Our Lady of the Gulf Church announced the appointment of Marilyn Pigott as principal of Our Lady Academy (OLA). Pigott has served as the acting principal since the resignation of Mrs. Darnell Cuevas in October of last year.

session of meth and possession of stolen firearms, as well as others.
"We basically developed (information) that Torie Gray had brought the firearms to the residence and he had fled the scene that night when (investigators) served the search warrant," Grannan said.
After an anonymous tip, Gray, 25, "was arrested (last Friday) at a local business regarding three active vehicle burglary warrants held through the Waveland Municipal Court," Waveland Police Chief David Allen said in a press release. "At the time of his arrest, Mr. Gray was in possession of stolen property obtained through recent vehicle burglaries. Mr. Gray also used a stolen bank card from one of the burglaries to make a fraudulent transaction just prior to his arrest. Mr. Gray has been connected with several other incidents of vehicle burglaries through neighboring law enforcement agencies over the recent weeks. He was booked into the Hancock County Sheriff's Office with no bond until he had an initial appearance with Municipal Judge P.J. Mauffray."
Grannan said that the Pass Christian Police Department had identified Gray and Fontenot as the primary suspects in 16 vehicle burglaries in the Pass.
Gray was charged with being in possession of a

stolen gun and possession of a firearm by a felon, Grannan said, "and that constitutes trafficking firearms, so we're contemplating putting together a trafficking charge."
Once Gray was in custody, Bay St. Louis police executed a search warrant on his vehicle "that had just been repossessed," Grannan said. "They recovered stolen property from the vehicle. Some of the property had been stolen from the Pass Christian burglaries. Other property was from a burglary in Bay St. Louis. They were able to close a burglary and charged Torie Gray and Brennan Simolke both with receiving stolen property, two counts; and then Waveland had developed Simolke as a suspect in three of their burglaries ... and we arrested him for that, as well."
Simolke, 25, was also charged with parole viola-

TIME TO

By the time hunting season ends, the last word many of us want to hear is “deer.” Yet, before the season starts it is the only thing on our minds. No one questions the importance of scouting in September for an October bow hunt or a November gun hunt for whitetails, or even for a photography outing. But we seldom think about scouting in March—a time when Mississippi’s largest land mammal is leaving a clear sign saying, “Yes, I was here.”

That sign is in the form of shed antlers. Antlers are made of fast growing bone and are shed every year (except in rare cases). Horns, on the other hand, are slow growing and permanent and are usually grown by both sexes.

Antlers fascinated me so much that when I was a senior in high school, my science project was on antler growth and abnormalities. Dr. Harry Jacobson formerly of Mississippi State University’s College of Forest Resources and one of the world’s premier white-tailed deer researchers, who was a great influence on me entering the field of fish and wildlife management, was my source of information.

By the end of the deer hunting season, or late January, the white-tailed deer is undergoing tremendous physiological changes. In December, the days are short and the temperatures are dropping. This phenomenon triggers a reduction in activity in the pituitary gland which, in turn, stops the production of testosterone. To make a long story short, the resulting effect is the weakening of the bond between the antler and the pedicel on the skull. This causes the deer to shed his antlers—that is, with a slight jar. The shedding time for each antler can be from minutes to several hours of each other.

Because the antlers are jarred loose, if you are doing some late-season scouting, check around fence crossings and the entrances into thickets. Bedding areas are great areas to scout as well since many deer spend much time there in late winter conserving energy. And that has especially been so this year with the cold weather Mississippi has been experiencing.

If you are lucky enough to find one antler shed, look in the area for its mate. It shouldn’t be too far away. Finally, there are great personal rewards in finding a set of sheds in your post-season scouting trips and then taking the deer during the next deer season. If you compare the intact antlers with the sheds that were found the previous year and they are similar, there is a good chance that the sheds were his. Pre-season scouting can give one that extreme satisfaction that can last a lifetime.

REFLECTIONS ON LIFE

by **Fr. Jerome Ledoux, SVD**

berries along Dunbar Avenue. The dewberries always ripened a couple of weeks ahead of the blackberries.

Surrounded by such delights, we thrilled also to other heralds of spring and Easter, such as the grape-like bunches of purple wisteria flowers dangling from the tall pines along Dunbar Avenue. The intoxicating smell of their delicate perfume saturated the atmosphere for about a mile along their bewitching trail. This was an annual thrill until Hurricane Camille destroyed all the big pine trees on August 17, 1969. Like a lost orphan, I searched in vain for the wisteria blossoms in 1970.

Each year about this time, be on the lookout for other signs that Holy Week is drawing near, like the curious legend of the redbud tree, aka the Judas tree.

Judas Iscariot was the only apostle not from Galilee. Iscariot means “man from Kerieth.” Since the redbud tree is known as “the tree from Kerieth,” it became associated with Judas Iscariot. A legend has it that Judas hanged himself on a redbud tree. So for centuries the Cercis siliquastrum has been called the “Judas tree.” The legend goes on to say that, as Judas hung on the tree, the tree’s white flowers blushed and turned red because the tree was ashamed that the betrayer of Christ died on it. Although the origin of this legend is unknown, many Israeli gardens, e.g., Neot Kedumim and the Jerusalem Botanical Garden, associate the Cercis siliquastrum with Judas Iscariot.

Holy Week has another fascinating arrival seen throughout the wilds of the

countryside, bringing to life once more The Legend of the Dogwood:

At the time of the crucifixion, the dogwood had reached the size of the mighty oak tree. So strong and firm was its wood that it was chosen as the timber for Jesus’ cross.

To be used for such a cruel purpose greatly distressed the dogwood. While nailed upon it, Jesus sensed this, and in his compassion said, “Because of your pity for my suffering, never again shall the dogwood tree grow large enough to be used for a cross. Henceforth, it shall be slender, bent and twisted, and its blossoms shall be in the form of a cross: two long and two short petals.

“In the center of the outer edge of each petal will be the print of nails. In the center of the flower, stained with blood, will be a crown of thorns so that all who see it will remember.”

Some, but not most, flowers are in bloom at the same season of the year. At this particular time of the year, in massive gardens

Lawsuit against EMCF exposes a harsh reality

At the federal courthouse in Jackson, East Mississippi Correctional Facility is defending itself against a lawsuit claiming atrocious conditions for its inmates.

The facility, just south of I-20 six miles west of Meridian, was built in 1999 to house 1,500 inmates. It specialized in housing the mentally ill.

Taking care of the mentally ill has always been one of the greatest challenges of a civilized society. Over the centuries, horror stories of genuine hell houses have been a never-ending blight on modern society.

So how did a prison become a mental health facility? The answer lies in the age-old problem of unintended consequences.

GUEST OPINION

by **Wyatt Emmerich**
Publisher/Northside Sun

Forty years ago, media exposes of the horrific conditions of mental institutions led to a nationwide movement to shut them down. This movement was highlighted by the 1975 movie One Flew Over the Cuckoo’s Nest, starring Jack Nicholson who won an Academy Award for his performance of a brilliant, eccentric crazy person whose ultimate fate was a lobotomy which turned his lovable character into a zombie.

The movement released hundreds of thousands of crazy people to roam the streets. You can still see them today on many street corners wandering aimlessly, talking to themselves and often getting into conflicts with the law.

The plan was to have more humane, smaller local mental health facilities. To some extent this has happened. But the best laid plans of mice and men are easily led astray. Mounting needs and budg-

et crunches shortcircuited the benevolent vision.

So what happened? Our prison facilities have become the de facto mental institutions for hundreds of thousands of mentally ill people. We are back to where we started, but even worse because prison guards lack basic mental health training that once partially existed at our closed mental institutions. We are worse off than when we started.

Even worse, a large percentage of the mentally ill cannot be legally sent to state prison so they linger in county jails where they are inhumanely subjected to cruel treatment by ill-trained guards. Our jails

BWSD school board sets in motion search for superintendent

BY CASSANDRA FAVRE
STAFF WRITER

The Bay-Waveland School District Board of Trustees on Monday hosted a special meeting to discuss the superintendent search.

Last week, superintendent Vikki Landry submitted her resignation to the board – which it accepted – citing "retirement" as the reason.

Prior to entering executive session to discuss the superintendent search process, athletic director position and potential litigation regarding personnel, the board approved a motion accepting the resignation of BWSD athletic director Vernon Powell, effective March 16.

The board also approved Landry's recommendation of a stipend of \$500 for Colby Adam, who will act as the point of contact for the district's athletic department.

After executive session, the board approved several motions.

The first motion was the approval of a job description for the superintendent to be posted to the district's website. The motion passed unanimously.

The second motion authorized

Landry to post the job listing to the district's website. The motion also included permission for board president Casey Favre to send the job posting to the Mississippi School Boards Association, Mississippi Association of School Superintendents and the 33 previous applicants who applied after the resignation of former Superintendent Becky Ladner. The motion passed unanimously.

The third motion involved adopting a timeline for the hiring process for a superintendent. The motion passed 3-2. Trustees Mike Bell and Mark Kidd voted "no."

The fourth motion allowed for the scheduling of a special board meeting for April 2 at 5:30 p.m. for the "purpose of going into executive session to interview superintendent candidates." The motion passed unanimously.

The final motion allowed for the scheduling of a second special board meeting for April 4, at 5:30 p.m. for the "purposes of approving a potential superintendent's contract." The motion passed unanimously.

The next regular school board meeting is scheduled for April 9 at 5:30 p.m.

St. Joseph's Altars

BY GEOFF BELCHER
NEWS EDITOR

Hundreds of Hancock County residents ate well on Monday, thanks to St. Joseph's Day altars at the Koerner home and Our Lady of the Gulf Church in Bay St. Louis; and St. Clare Catholic Church in Waveland.

Koerner Family

The late Patsy Koerner started her family's St. Joseph's Day tradition 49 years ago, when her son Clyde Koerner, Jr. went in the Marine Corps. Since then, Clyde's own son also served in the corps and was honorably discharged.

Although Patsy passed away in 2003, the family continued the tradition in her memory.

"Only one more to go," Clyde said Monday. "It stops at 50. ... Hopefully, our grandchildren will pick it up after that."

New additions to the altar this year included family patriarch Clyde Koerner, Sr.'s hand-

built model of the old Annunciation Church in Kiln.

Our Lady of the Gulf OLG's Angel Ministry also hosted a St. Joseph's Day Altar, feeding more than 300 people on Monday.

"It's been a huge turn-out," Angel Ministry member JoAnn Hille said. "I think this may be our biggest one ever."

St. Clare Catholic Church

The parishioners of St. Clare Catholic Church in Waveland hosted a St. Joseph's Altar all day, followed by a huge, freshly-prepared dinner Monday evening.

Rhonda Gamble, one of the organizers of the event, said any food left over from the altar would be given to the poor, elderly or home-bound.

are overwhelmed.

If these ill people are forcibly medicated, then they can temporarily become non-threatening to themselves or others, which means by law, they must be released. Once free, they stop taking their medications and the whole process starts over.

This is a sad state of affairs. There are many terrible diseases but mental illness is probably the most cruel and the most difficult to deal with.

All the experts know what is needed: Modern, clean facilities where trained experts can compassionately treat the victims. There should be gardens and walking trails and organized activities. Patients should be genetically tested to find what drugs are most suitable. Intensive personal therapy combined with cutting edge drugs could save many of these lives with the ultimate goal of reintegration into society.

But it is not so for one reason: Money. Such mod-

ern, humane treatment is exorbitant and our society has not deemed this a priority. So, instead, we have the East Mississippi Correctional Facility (EMCF.)

Like early childhood education, properly treating mental illness would save billions in the long run. But the politics of the world make it almost impossible to happen. Many mentally ill people end up committing suicide. Nobody Cares About Crazy People: The Chaos and Heartbreak of Mental Health in America by Ron Powers is an excellent book that chronicles this crisis in our country.

This is a disaster of huge proportions. One in 10 people will suffer serious mental illness at some point in their lives. The economic toll is billions upon billions.

Often treatment is left to the family, if the mentally ill person is blessed enough to have one. The emotional and financial burden of dealing with a mentally ill family member is devastating. One of the first pieces of advice to family members struggling to help is to seek mental counseling lest they become overwhelmed

themselves.

There are genetic factors behind mental illness, but environmental stress can be the trigger. As our society becomes increasingly chaotic and stressed, mental illness is reaching epic proportions.

EMCF is run by a private company, Management & Training Corporation, based in Utah. It's the third largest private prison company in the country. Attorney General Jim Hood is suing the company because of its involvement with the Chris Epps bribery scandal.

In 2015, the American Civil Liberties Union and the Southern Poverty Law Center filed suit to force improvements at EMCF.

The suit alleges the usual horrors that have plagued mental institutions forever. Rape, beatings, cruelty, failure to medicate. As part of the evidence reviewed by Judge William Barbour, a captain at the prison said in a deposition that prisoner-on-prisoner violence was commonplace, that corrections officers were poorly trained, and that guards facilitated

inmate violence by opening cell doors and then failed to intervene when prisoners were assaulted.

Guards arranged for prisoners to attack one another, ignored fires set by inmates to signal distress, and allowed prisoners to trade whiskey and cellphones. Mentally ill were locked in solitary confinement for weeks at a time. Plumbing failures. Roaches. Filth. Rats. Watered Down gruel. One mentally ill patient sliced himself up and was left for hours on his cell floor to bleed to death. The list of atrocities is long.

Time marches on. There is nothing new under the sun. The horror of EMCF is repeated time and time again, especially in poorer places where money is lacking.

Let's hope this lawsuit can make some small dent in our collective consciousness. Let's hope in the march of progress, civilized society can one day learn to care for the mentally ill like we do those suffering from heart disease and cancer.

such as 65-acre Bellingrath Gardens in Theodore, 14 miles southwest of Mobile, Alabama, one can view the greatest variety of flowers simultaneously on spectacular display around the country. On their last leg, camellias are making their final cold-weather blooms while the buds of splashy azaleas peek out into newly awakening spring days. The bridal wreath (spirea) is in its glory, as are magnolia grandiflora, red tip photinia, Easter lilies, St. Joseph Lilies (Amaryllis) and magnolia Virginiana (sweetbay).

A dark-green, even-leaved, handsome shrub that might top out at seven feet, the banana magnolia is in a class by itself. Its beautiful, oval flowers, approximately the size of the first joint of your digital finger, have the tantalizing fragrance of ripe

bananas that is even stronger than that of real bananas. Creamy ivory in color shot through with dashes of strong reddish, brownish near the top, the little beauties are a sight to behold and a singular joy to smell. They remain as buds in shape.

The winter's end signaled the stirring of ponds with their beautiful guppies, minnows and other marine creatures that gripped and fascinated us teenagers endlessly, especially during the Great Silence of Good Friday which all of nature conspired to put in its own holy context and solemn reverence. I would not trade those precious memories for gold, gems or any legal tender. In fact, those memories live on in every Holy Week and our reliving of the Passion of the Christ.

After the cruel winter of the passion, crucifixion, death and burial of Jesus, Mother Nature reminds us through new buds, blooms and many shades of green that hope springs eternal throughout nature and supernature.

AUDREY FAYE BUFKIN HERRING L. LANE SHAW

AUDREY FAYE BUFKIN HERRING

It is with great sadness that the family of Audrey Faye Bufkin Herring announces her passing on Friday, March 16, 2018, at the age of 84 years.

She was proceeded in death by her parents, Otha and Elsie Breland Kennedy, as well as her sisters Olga Gilpin, Arlie Tate, Joan Tully, and her brother, Derrell Kennedy.

Faye will be lovingly remembered by her children, Connie Bufkin Bourgeois and John Louis Bufkin, Jr. (Carmel), by her granddaughters Kelli Bailey (Chris), Chenaey Beaugez (Jerry), Janelle Graham (Sean), and Jeanne Necaise (Freddie), her sisters Adeline Morel, Patricia Favre, Glenda Kozak (Ron), and her brother Otha D. Kennedy (Nelda).

'Nana' will also be forever missed by her ten great-grandchildren, numerous nieces, nephews, and extended family and friends.

As a local business owner of The

Donut Shop and The Office Lounge, Faye was adored by all who met her. An active and devoted member of her community and life-long lover of all sports, she was sponsor and coach to many teams in Hancock County, avidly cheering on and encouraging those participating. Her elegance, generosity, and beauty shined through all she did.

A memorial service in her honor will be held at Edmond Fahey Funeral Home, 110 S. Necaise Avenue, Bay St. Louis, MS on Friday, March 23 from 9-11am. Edmond Fahey Funeral Home in Bay St. Louis, MS is in charge of the arrangements.

L. LANE SHAW

It was on the rainy day of March 11th 2018 that the rain stopped and the skies opened up to welcome a new angel...L. Lane Shaw. It was on that rainy day that Lane finally laid down her armor to surrender her soul to the next big journey in eternal life. For those of you who knew Lane you know that she didn't go down without a fight! She was Irish and proud! Most people would say she was a "one of a kind" lady.

Lane was born January 16th, 1940 and was a happy-go-lucky child despite enormous childhood obstacles. She carried that attitude throughout the rest of her life. She was a Mother, Grammy, poet, writer, gardener, friend, survivor, independent, spiritual, wise, smart, loving, insightful, compassionate, patriotic, political, bird lover, squirrel lover, devoted animal lover (she fed them all), giving, fighter, tenacious, determined, opinionated, strong willed, head strong, bossy, spirited, generous, festive, and oh yes...she was also a very successful stock broker in her early years and owned two very successful restaurants.

She came to the Bay 15 years ago and never left! That says a lot coming from a woman who moved at the drop of a dime to where the wind blew her. She loved the Bay! She loved the people! She also loved her cappuccinos extra hot and sugary. She touched many lives and many people touched her life. Lane endured enormous battles of physical pain, emotional pain, and hardship. But she would never let that get her down and it certainly did not slow her down either! She would even say that her life was a great success! She felt fortunate for her family and great friends. She considered herself to be a very lucky woman! If only she had written her biography... trust me that

would have been memorable!

Lane throughout her life endured many challenges, 13 different foster homes, four husbands, rare bone disease, a bout with epilepsy, a hurricane and blindness. She took in many foster children and rescued many animals and poor souls along the way. Not to mention the hitchhikers she would pick up at my dismay.

Even though she had a life of challenges she's a person who would rather focus on her life's blessings and what she is most proud of, her three children and her six grandchildren! She insisted on being present at the births of every grandchild...weather she was invited or not! She was not going to miss out on that miracle.

We all have a purpose on this earth...Lane's purpose was to help, listen, nurture anyone who needed guidance, be a friend or even at times offer a place to stay. Her wise words of wisdom were always welcomed. Lane had true interest in other people's life stories and their problems. She always saw the good in people and was extremely generous (sometimes to a fault). She would give you her last dime if you needed it.

Her love for animals was always amazing and inspiring....I truly believe she was an animal whisperer. With her quiet patience, she could coax a wild bird to come eat out of her hand. She even hand fed a wild boar! While in high school she had tamed a wild fox that would then sleep with her. If there was ever a suffering animal she would rescue it, nurture it back to health and set it

back into the wild. Driving down the road one day she saw a opossum that had just been hit. She immediately pulled over and found that it was a mother with her babies. The mother didn't make it so she scooped the babies out of her pouch and bottle fed them until they were old enough to be set free. In her younger years she owned and trained several horses, had two pet geese called Hansel and Gretel who adored her, they were her protectors and would wrap their necks around her arms for affection.

Her independence was slowly taken away. First she became legally blind and had to give up her license (that was a hard one, she loved to drive). As she slowly deteriorated throughout the years she did so without complaining. She always said "the day I stop walking that will be the end" and she was right. She was considered a "miracle" patient from her doctors. She broke dozens of bones and still continued walking almost until the end. She never complained about her pain or wallowed in self-pity, she didn't believe in that. She was grateful to be alive!

For those people who didn't know her personally they may recall her as the woman who was a "fixture in the garden" at the Mockingbird. You always knew where she lived because her house was lavishly decorated for every holiday! Or you may have read some of her beautiful poetry.

Her tenacious character will always be remembered and will be an inspiration to those that knew her. In her honor of passing we will be holding a "celebration of her life" at her favorite hangout, the Mockingbird Café in Bay St. Louis MS on Sunday, March 25th at 4 o'clock. All are welcome to join! Edmond Fahey Funeral Home in Bay St. Louis, MS is in charge of the arrangements.

year. He added that Adam agreed to cover any excess from his budget.

LaFontaine also added two other addendums to the motion.

With Favre's position on the Bay-Waveland School District Board of Directors in mind, LaFontaine said the motion's approval must also be contingent on requesting an opinion from the Attorney General's office regarding Section 1, 2 of the Mississippi Constitution. That section pertains to separation of powers, LaFontaine said.

"Based on the preliminary review I'm not sure that there is a separation of powers issue, but I think that having the proper documentation supports this board and supports Mr. Favre's endeavors with the county to fill this position," LaFontaine said.

The final addendum to the motion involved a request for an Attorney General and Ethics Commission opinion regarding Mississippi Code 25-1-53, which deals with nepotism, LaFontaine said.

2013 Mississippi Code 25-1-53 reads, "It shall be unlawful for any person elected, appointed or selected in any manner whatsoever to any state, county, district or municipal office, or for any board of trustees of any state institution, to appoint or employ, as an officer, clerk, stenographer, deputy or assistant who is to be paid out of the public funds, any person related

by blood or marriage within the third degree, computed by the rule of the civil law, to the person or any member of the board of trustees having the authority to make such appointment or contract such employment as employer. This section shall not apply to any employee who shall have been in said department or institution prior to the time his or her kinsman, within the third degree, became the head of said department or institution or member of said board of trustees; and this section shall not apply to any person seeking appointment as an election worker who has served as an election worker in the election immediately preceding the commencement of a term of office as an election commissioner by his kinsman within the third degree. The provision herein contained shall not apply in the instance of the employment of physicians, nurses or medical technicians by governing boards of charity hospitals or other public hospitals."

"Mr. Eddie Favre our administrator is also an appointed figure head of the county," LaFontaine said. "And I think it's well documented that according to 25-1-53 and other AG opinions, it's specific that Mr. Casey Favre is also the nephew within the third degree of kinship related to Mr. Eddie Favre."

Supervisor David Yarborough asked Adam if there was another position to be filled and how much would the county save per year.

Adam said the savings

would be about "\$80,000," and that there is another LPN position to be filled.

"We're going to do this just like we've done everything else, responsibly," Adam said. "We're going to look at in a year and if it works, we're going to keep it. If it doesn't, we'll go back to where we were."

Both Yarborough and Supervisor Greg Shaw told Adam they weren't going to tell him how to run his office.

"I'll take all the politics out of it," Adam said. "I'm doing the hiring and in a year's time, if there's firing, I'll be the one to do that too. I've been there seven years and haven't hired anyone for politics and haven't hesitated to fire anybody for politics. This is all on the sheriff's office. We think it's going to make it better and make my employees better."

BSLLT showcases original plays

SEA COAST ECHO

The Bay St. Louis Little Theatre opens its latest season show with the Second Annual "Mississippi Writes Original." Each night five original one-act plays will be performed by local actors. This presentation is part of the Tennessee Williams' Tribute that the Little Theatre established in 2008. Writers from only Mississippi are invited to submit their original works. This year five plays were chosen. The Mississippi playwrights are Katrina Byrd, Jim Fraiser, Faith Garbin, and Gary Taylor. The writers will be in the front row of the show to see their play performed for the first time. A special additional feature of "Mississippi Writes Original" is "Chat with the Cast." Each night at the end of the show, the audience members will be invited to enjoy wine and cheese while joining in discussion, and Q&A with the writers, directors, and cast. "Last year, this special feature really added to the already unique experience of the show," stated Board member Clayton Pennylegion. "We really encourage our members and community to attend to support our state's writers and talent. We want to celebrate the Mississippi native talent." The shows feature comedy, drama, and clever twists.

The show's one-act plays are directed by Jim Fraiser, Jen Coulter, and Cheryl Grace, and produced by Cheryl Grace. The cast includes Shannon Wooten, Fred Varnado, Clayton Pennylegion, Irv Hansen, Terry Cullen, Genie Talbert, Jen Coulter, Amaya Clark, Sarah Morgan, Bill Matkin, Barry Newman, Dave Kernion, Linda Aiavolasiti, Keith Gregory, Gloria Noonan, Haley Hirschfeld, Anna Beth Hirschfeld, Trinity Hirschfeld, Paul Fraiser, Jim Lindsay, and Cheryl Grace. Set construction is by Dean Noel. The stage manager is Maggie Marquez-Wooten.

The show dates and times are March 23, 24, 30, 31 at 8pm and March 25 at 2pm. Doors open one hour before the show and seating starts 30 minutes before each show. Tickets for the show can be purchased online at www.bsllt.org or purchased at Lulu's at 126 Main Street or Twin Light Creations at 136 Main Street. Ticket fees are \$18 adults, \$10 Seniors 65+, veterans, military, and students with ID, and \$8 for children 12 and under. Seat reservations can be made by calling 228-467-9024 or email the Little Theatre. Reservations for seats must be made for all ticket holders including season ticket holders to be able to accommodate the show's audiences.

BABE RUTH LITTLE LEAGUE OPENING DAY FESTIVITIES

BY JOSEPH W. GEX, II
STAFF WRITER

The Bay St. Louis Babe Ruth Little League has a full day of festivities planned for opening day this Saturday, March 24th beginning at 12 noon. The opening day parade will take place at 12 noon beginning at the parking garage on Court Street. The parade will head north on Court Street to Second Street and head east to the intersection with Main Street. There the parade participants will head south down Main Street to the intersection with Beach Blvd. Next, the parade will turn west down Beach Blvd before turning north on Court Street and finishing at the parking garage. The league will hold

opening ceremonies at the baseball complex on Athletic Drivr beginning at 3pm. Bay St. Louis native Jay Artigues, a 1987 Saint Stanislaus College graduate and former head baseball coach at PRCC and Southeastern Louisiana University and current Athletic Director at Southeastern Louisiana University in Hammond, will offer comments to the young players and their families and will throw out the first pitch. Also joining on the fun of the day will be Schooner the Seagull, mascot of the Biloxi Shuckers minor league baseball team. Bay St. Louis Babe Ruth Little League Association President Justin Hutchinson stated,

"The Bay St. Louis Babe Ruth Little League Association's mission is to provide an educational, safe and fun environment for the youth of Bay St. Louis through playing our national game of baseball while promoting sportsmanship, pride and community development. We are looking forward to this year's season. Now, let's play ball!" The first games of the season will begin at 4pm, 5:30pm and 7pm at the baseball complex. The teams represented this year in the 11-12 Major Division are the Coastal Hardware Cubs, Chiniche Engineering Dodgers, Mayos AC Braves and the Pet Haven Yankees. The 9-10 Minor Division teams are the Bay

Pool Company Cubs, Edward Jones Cardinals, L&L Construction Yankees, Delta Tire World Phillies, and the Quality Custom Carts Astros. The 7-8 Rookie Division teams are Brennan Compretta AllState Cubs, Coast Electric Cardinals, BCF Brewers, Powell Chiropractic Braves, and the Lakeshore Automotive Astros. The 5-6 T-Ball Division teams are Atlantic Marine Marlins, Primerica Braves, B & H Lawn Care Braves, Edmond Fahey Red Sox, Mike Meyers State Farm Yankees, and the Yarborough Law Firm Angels. The 4-under T-Ball Division teams are Gulf Coast Pools Braves and the S & B's Grill Astros.

WEATHER CAUSES DELAYS ON DIAMOND

BY JOSEPH W. GEX, II
STAFF WRITER

The area was forecast to experience stormy weather last Friday and Saturday; however, not much came through the area. The majority of the baseball games scheduled for Friday were played early due while Saturday's games were called off. The Bay High Tigers postponed their division game with the Pass Christian Pirates Friday to a date not yet determined while their double-header on Saturday was called off. The Tigers are currently 5-4 overall and 1-0 in the division. The Hancock Hawks played their game with Long Beach early to avoid the weather while their double-header on Saturday was called off. The Hawks are currently 8-4 overall. The Pass Christian Pirates will reschedule their missed game with Bay High in the near future while their double-header on Saturday was called off. The Pirates are currently 3-7 overall and 0-1 in the division. The St. Stanislaus Rock-a-chaws played their game with SSC early to avoid the weather while the games

for Saturday were called off. The Rocks are currently 3-6 overall and 0-2 in the division. On the softball diamond, the Bay High Lady Tigers (5-9-1, 0-1) traveled to the Clarkdale Spring Fling and came away with two wins. On Thursday, Bay High fell to East Central 11-3. Layla Waite, Kaylen Ott, Lizzie Weems, Domonique Cole, Kayla LaFontaine, and Taylor Bonvillion all collected hits with Weems, LaFontaine and Bonvillion collecting RBIs. On Saturday, Bay High topped Russell Christian Academy 7-0 and Lake 6-2 on Saturday. Against Russell, Bay High tallied three runs in the first, and two in both the third and fourth for the difference. Breleigh LaFontaine and Weems both smacked two hits while Lumpkin had an RBI and Weems had three RBIs. Waite and LaFontaine also had an RBI. Ahmie Khadaroo, Waite, Ott, Cole and LaFontaine all had a hit. Bay High downed Lake 6-2 on Saturday behind Waite's two hits and three RBIs. Ott had two hits and a RBI while Lumpkin had a hit and

LaFontaine tallied an RBI. The Hancock Lady Hawks (8-1) did not play on Saturday due to weather. The Pass Christian Lady Pirates dropped a double-header with PRC on Saturday 11-1 and 9-1. In the first game, Pass Christian (4-7, 0-1) was limited to a hit by Caleigh Myers and Taylor Necaise. Myers also had an RBI. In the second game, Myers had an RBI in a no-hitter. In upcoming action on the baseball diamond, Bay High will host East Central on Friday, March 23rd and travel to Laurel on Saturday, March 24th. The Hawks travel to Pascagoula on Friday and his Pass Christian on Saturday. The Rocks host Vancleave on Friday and d'Iberville on Saturday. On the softball diamond, Bay High travels to Vancleave on Friday and Hancock on Saturday. The Lady Pirates host Bay High on Tuesday, March 27th. The Lady Hawks host Biloxi on Thursday, travel to Pascagoula on Friday and host Bay High on Saturday. See you at the games!

REQUEST FOR COMMENTS: EXEMPTED FISHING PERMITS TO ALLOW STATE PILOT PROJECTS FOR THE MANAGEMENT OF RECREATIONAL RED SNAPPER FISHING IN THE GULF OF MEXICO

SEA COAST ECHO

NOAA Fisheries announces a comment period on five exempted fishing permits (EFPs) submitted by each of the five Gulf of Mexico (Gulf) states. Each Gulf state marine resource agency has submitted an EFP that would allow them to set the season(s) for recreationally caught red snapper from state and federal waters that are landed in each respective state for 2018 and 2019. The purpose of these EFPs is to allow states to demonstrate the effectiveness of state man-

agement of recreationally caught red snapper and data collection methods through 2-year pilot programs. Comments are due by April 2, 2018. SUMMARY OF THE PROPOSED EXEMPTED FISHING PERMITS: States would establish seasons when red snapper could be landed. Recreational fishermen with the appropriate licenses from the state would be able to land fish caught in federal waters during the state season. States would require fishermen to land their red snapper following state-

specific rules. States would monitor red snapper landings and close their seasons if a state's assigned quota is reached or projected to be reached. HOW TO COMMENT ON THE EXEMPTED FISHING PERMITS: The comment period is open now through April 2, 2018. You may submit comments on the EFPs by electronic submission or by postal mail. Comments sent by any other method (such as e-mail), to any other address or individual, or received after the end of the comment period, may not be considered

HANCOCK COUNTY SCHOOL DISTRICT ANNOUNCES ADMINISTRATOR OF THE YEAR AND TEACHER OF THE YEAR

TAMMY ESTAPA, HANCOCK COUNTY DISTRICT TEACHER OF THE YEAR, RECEIVES HER AWARD FROM DR. RICK SAUCIER, ASSISTANT SUPERINTENDENT.

SEA COAST ECHO

Hancock County School district is pleased to announce the Administrator of the Year and Teacher of the Year for each school and the district. Superintendent of Education, Alan Dedeaux commented, "Hancock County School District is blessed with outstanding teachers and administrators. The teachers selected as the Teachers of the Year this year, and our Administrator of the Year, are a wonderful representation of our team. We are proud of them and congratulate each and every one of them."

Rose Jenkins Administrator of the Year

Mrs. Rose Jenkins, principal of South Hancock Elementary, has been named Hancock County School District Administrator of the Year. Rose earned her Bachelor of Science degree in Elementary Education in 2003 from the University of Southern Mississippi. She returned to USM, earning a Master's in Educational Administration in 2010 and is currently enrolled at USM working on her Ph.D. in District Level Administration. Mrs. Jenkins has worked in the education field for thirteen years. She has served as an administrator for six years, the last four at South Hancock Elementary.

Rose is a dedicated and experienced educator committed to academic excellence. During her years at South Hancock Elementary, she has welcomed every opportunity to make a positive impact on the population she serves. She is an outstanding educator and has proven very successful at the administrative level. Upon her arrival as principal, Mrs. Jenkins studied, read, had conversations and mapped out a plan with the mantra of "Excellence is simplicity with diligence". Through her leadership, classroom instruction has become quality, engaging classroom instruction. The "Integrity Checks" she implemented with her teachers assures that every four weeks, struggling students are discussed and monitored for progress and success. Within a year, under Mrs. Jenkins' leadership, South Hancock grew from being a "D" level school to a "B" school, earning the respect of fellow educators, parents and the community.

Rose is active in her community. She collaborates with the Waveland Civic Organization to recognize students of the month at South Hancock Elementary. She also works with two local churches, providing good character lessons two mornings a week before instructional time, and providing a "Back Pack Buddy" program that pro-

vides non-perishable food to students in need for the weekends. The March of Dimes is an organization near and dear to her heart. In 2007, her twins were born pre-mature and had an extensive stay in the NICU. The Jenkins family was selected as the poster family for March of Dimes in 2016. Each year the students at South Hancock are involved with "Change for Change" which is a fundraiser for the March of Dimes.

Rose is married to Rod Jenkins and is the mother of Cameron and Cooper.

Tammy Estapa District Teacher of the Year Teacher of the Year East Hancock Elementary

Tammy Estapa has not only been named Teacher of the Year for East Hancock Elementary, but she has also been named Hancock County School District Teacher of the Year. She is the Teacher of the Year representing East Hancock Elementary where she teaches 5th grade math, science and social studies. Tammy graduated from Hancock High School in 1999 and graduated from the University of Southern Mississippi in 2003 with a Bachelor of Science degree in Elementary Education. Recently, Tammy achieved National Board Certification.

When asked what influenced her to teach, Ms. Estapa shared, "Seeing my mother impact so many students led me to this career. There wasn't a trip to the store that we didn't run into a former student or parent of a student and they shared stories of what that student remembered about her class. I knew that I would have an impact on my community just like my mom. It wasn't until becoming a camp counselor for the AstroCamp at Stennis Space Center, while in college, that I realized just how much I loved teaching math and science. Working at the camp allowed me to see I had chosen the correct field and chose an emphasis area of science, which is uncommon for most elementary teachers." Last summer, Tammy became the director of the AstroCamp housed at Infinity Science Center. She also is an organizer of East Hancock's Art and

Science Night, coordinator of the school science fair, a key teacher for the regional science fair, organizer of the school Promote the Vote, serves on the EHE leadership committee, and provides support for the school's new robotics team. Her newest project is implementing a STEM activity period for 5th grade students which will allow all 5th grade students to explore coding and program robots.

Tammy has taught for fifteen years at East Hancock Elementary.

About her experience as a teacher, she shared, "I used to think that there was nothing more satisfying than seeing a student's "light bulb" go off, but that changed when I heard it! Hearing the "aha" moment is even better! I think students learn best when they are doing and not being told about something. When students are asked to put on their safety glasses for an experiment, the low roar of mummurs fills the classroom with anticipation of what will come next. I believe in Ms. Frizzle's (from the Magic School Bus) philosophy, "Take chances, make mistakes, and get messy!" I encourage my students to do all three because I do

and the best way to let kids know it's okay is to show them!"

Amber Cameron Teacher of the Year Hancock North Central Elementary

Amber Cameron has been named Teacher of the Year for Hancock North Central Elementary. Hancock County has always been her home. Amber attended Hancock North Central Elementary as a student, and graduated from Hancock High School in 2004. After high school, she obtained an Associate's Degree from Pearl River Community College, and in 2008 grad-

THE SEA COAST ECHO®

entertainment news

SEA COAST ECHO

The event is free and open to the public. This Sunday's event features Stephen Redfield, Alexander Russakovsky, Theresa Sanchez, and art by Herb Willey.

4 pm: Music – 5:00pm: Art and Reception at Christ Episcopal Church, 912 South Beach Blvd, Bay St. Louis.

4 p.m. – Performing Artists

Violinist Stephen Redfield has taught violin and chamber music at the University of Southern Mississippi School of Music since 1996. He spent 2011-12 on leave as Chair of the Music Department at the New Mexico School for the Arts, where he is also concertmaster of the Santa Fe Pro Musica. Each summer since 1992, Stephen has performed with the Victoria Bach Festival. He is a long-standing participant in the Oregon Bach Festival, often featured as concertmaster, and in numerous recordings, including the Grammy Award-winning disc "Credo." Stephen plays with his faculty colleagues in the Impromptu Piano Quartet and Trio, and performs regularly as a Baroque violinist with the Albuquerque Baroque Players and with the Atlanta Baroque Orchestra. He has also performed concerts with the Smithsonian Chamber Players and the Newberry Consort. His Sebastian Ensemble with harpsichordist Kathleen McIntosh has performed throughout the US, and in Spain, Cuba and Peru.

A graduate of the Yale University and the University of Santa Barbara, Alexander Russakovsky has appeared in numerous solo and chamber music performances in Russia, Israel, Europe and the United States. A founding member of the Jerusalem Academy String Quartet, he also performed in the Chamber Music Series of the Spoleto Festival in Italy, the Barge Music in New York City, and the Western Slope Music Festival in Colorado. In the fall of 2001 Dr. Russakovsky joined the music faculty of the University of Southern

Mississippi in Hattiesburg. He also has served on the faculties of the Adriatic Chamber Music Festival in Bonefro, the IV Violoncello Biennial in Peru, and the CICA Chamber Music Festival. Most recently, Dr. Russakovsky has given master classes and recitals in Taiwan, Israel, and Latin America. His disc, featuring Russian works for cello and piano, was released by Brilliant Classics in April 2014.

Pianist Theresa Sanchez pursues a varied performing career as a soloist and collaborative musician. She has performed as soloist with the Mississippi Symphony Orchestra, the University of Southern Mississippi Symphony Orchestra (including the Southern Nights CD) and The Wind Ensemble. With the Meridian Symphony Orchestra, she premiered and recorded Carey Smith's Piano Concerto No. 1. Dr. Sanchez was the founding Artistic Administrator for the Vicksburg Chamber Music Festival and performed in each series with various outstanding artists. She has been a faculty member at Jones Junior College since 1995, and is a past president of the Mississippi Music Teachers Association. She currently serves as Chamber Music Coordinator for the Hattiesburg Concert Association and FestivalSouth, and is listed on the Mississippi Arts Commission's Touring Artist Roster.

5 p.m. – Visual Artist
Born in January, 1940, Herb Willey has devoted much of his life traveling an artistic path that lead to his present identity as an internationally known Mississippi watercolorist. His first structured art lessons were in the public school system in Miami, Florida. While serving in the US Naval Air, Herb attended the University of Hawaii as a part-time art student.

After leaving the Navy he attended USL at Lafayette, Louisiana on a senatorial scholarship as a fine art major. While attending USL, Herb's collage work was selected by the Louisiana State Art Commission in 1963 for a

Herb Willey

1-year traveling exhibit in all the Louisiana State Art Museums. His acrylic paintings of Louisiana swamp scenes were chosen by the LaSalette Hospital Board to decorate their hospital in Loreauville, LA. Working part-time and following school, Herb worked as staff artist and advertising designer at the Daily Iberian in New Iberia, Louisiana and later as Advertising Manager at the Hammond Daily Star in Hammond, LA.

As a self-employed advertising designer in New Orleans from 1965-2003, Herb won awards from companies including Mercury Outboard Motors and Cook Chemical Company. His primary watercolor instruction was with the well known New Orleans watercolorist, Harrel Gray and his work was on display with Harrel's at the Old Quarter Gallery in the French Quarter during the 90's. Herb has been a full-time Mississippi resident since 2000 and Bay St Louis since 2013. His work is displayed at Galleries along the coast including Gallery 220, the Biloxi Visitors Center and Bay Life. His watercolor pieces have been juried and honored in regional, national and international shows including the Arts of Hancock County, The Gulf Coast Art Association, the Ocean Springs Art Association and the Pass Christian Art Association annual shows. He has also been featured in other venues including the Hancock County Courthouse, the Bay St Louis Mayor's Office and the Diamondhead Library. In August 2014 Herb was chosen by the Sea Coast Echo newspaper as both "Artist of the Week" and "Artist of the Month". He was chosen "Peoples Choice" Artist in 2015 in "The Arts Invitational Jury Show" at the Waveland City Hall Gallery. His art project for his solo show

"Along Beach Boulevard" (scenes along Highway 90 in Mississippi) was featured in a story in the April 2017 edition of "South Mississippi Living magazine".

- His local Juried shows in recent years include LSU's "Brush with Burden" (2016), the International River Road Show in Baton Rouge (2014, 2016 & 2017), the Mississippi Watercolor Society Show (2015) and the 2016 Louisiana Watercolor Society annual international show (the only Mississippi watercolorist to be chosen).

- Recent National juried shows included The Water Tower Watercolor Show in Mendocino, CA. (2016) and the Mighty Tieton annual International Show for Small Works in Tieton, WA (2016 & 2017).

- He was juried in to Global Division International Watercolor

Society shows in Hong Kong and Taiwan (2016). His painting of "Bay St Louis Crab Festival" was chosen for the Hong Kong show and his "Live Crabs" painting was selected for the Taiwan show and purchased by an international collector.

- Herb is a master member of the IWS Global division.

- In addition to his juried show appearances, Herb also had 4 solo shows in 2016-2017 of his group of 60 transparent watercolors entitled "Along Beach Boulevard".

- In April 2017 he was guest Judge for the annual

juried member show for the

Watercolor and Graphic Arts Society of Mobile, AL.

- His current project "Gulf of America" will be shown in December 2017 at the Mobile Art Council Gallery in Mobile. AL. featuring Alabama, Mississippi, and Florida coastal and marine related subjects.

uated from William Carey University with a Bachelor of Science degree in Elementary Education. She returned to William Carey and earned a Master’s in Elementary Education.

When asked what led her to teach, Mrs. Cameron shared, “I knew from an early age that God was calling me to make a difference in the lives of children. For the past ten years, I have been following His call at H.N.C.E. I taught first grade for three years, and when the opportunity came to move to kindergarten, I jumped in feet first. As nervous as I was to move into kindergarten, I soon found that this is where I am supposed to be. This is my happy place. I love the excitement the little ones have for

learning. Most of all, I love knowing that I am laying the foundation for all other future learning.”

When she is not in her classroom, Amber can be found doing a number of different things. Shopping, boating, hunting and fishing are all past times she enjoys. However, her favorite way to spend spare time is with her husband and sons. Amber is a mom to a third grader who also attends school at H.N.C.E. and a silly, sweet one-year old who keeps her on her toes. Amber feels she has a very unique career. She shared, “Few people have the opportunity that I have to watch a child grow and develop, to learn, to imagine, to create... and I truly cherish my time with each and every child and see it as just that... an incredible, rewarding opportunity! I love to teach! It is so much more than a job to me. It is a passion, an interest - something I put my whole heart into each and every day, 365 days a year. I thank God for calling me on such an amazing journey.”

Pam Evans Teacher of the Year South Hancock Elementary

Pam Evans was selected as Teacher of the Year for South Hancock Elementary and feels it is such an honor to have been chosen for this award. Pam is a 1984 graduate of Pascagoula High School and graduated from the University of Southern Mississippi in 1988 with a Bachelor of Science degree in Elementary Education.

When asked about what influenced her to teach, Pam stated, many teachers I had in school were an influence on my decision to become a teacher. However, my grandparents were my greatest influence. If not for their support and faith in me, I would not have been fortunate enough to complete a college degree.”

Mrs. Evans has taught for 19 years and currently teaches kindergarten. “This will be my fourteenth year in the kindergarten classroom. I would have to say that one of the things I love most about teaching, other than my students, is being able to see how much they learn and grow from the beginning of August to the end of May. That moment when you see the pride on their little faces when they read that first word or write that first sentence gives me chill bumps every year,” she shared.

Mrs. Evan’s classroom is family oriented. She teaches them that when they are in the classroom, they are all a family. She added, “Mistakes are okay, and we help one another over any hurdles we face. I believe each child deserves for me to treat them just as I would my own children because someone loves that child more than anything

else in the world. It is my job to love, protect, and nurture every student every second they are with me.”

Ashley Rouse Teacher of the Year West Hancock Elementary

Ashley Rouse has been selected as Teacher of the Year for West Hancock Elementary. Her educational journey began in Picayune, Mississippi, where she attended Roseland Park Elementary, starting in Kindergarten, and graduated with honors from Picayune Memorial High School. After high school, she attended Pearl River Community College, where she obtained an Associate’s Degree, and the University of Southern Mississippi where she obtained a degree in Elementary Education with an emphasis in Reading.

When asked what influenced her to become a teacher, Mrs. Rouse shared, “I knew I wanted to be a teacher after my Kindergarten year. I had an exceptional teacher for Kindergarten, who taught me the importance of learning and caring for others. She always taught me to reach for my potential and to never settle for less. After that year, I would go home after school to play school and pretend to be the teacher to all my stuffed animals! Year after year, I had educators that really made an impact in my life in some way. I realized I wanted to be that type of mentor to my students, once I was able to teach my own group of children. Eleven years ago this December, I was blessed with the opportunity I had always dreamed about! I immediately began to implement my own philosophy of education that relies heavily on one very important value, “to treat every child as my own”. This helps me guide every educational decision I make to do what is best for each individual child.”

“Over the past eleven years, I have taught many grades from Kindergarten to 4th. This year I am teaching Kindergarten at West Hancock and I am so honored and blessed to have this position, especially in an area where I grew up! Kindergarten is the grade

where I learned about my love for teaching and my educational journey began! I only hope that I am able to inspire, not only my current students, but my past students to follow their joy in life and achieve all of their potential.

Ashley is a member of Mississippi Professional Educators and was selected this fall by the Mississippi Department of Education to serve on the Mississippi Teachers Council. She has been awarded several grants including the Mississippi Professional Educators grant two years in a row. These grants have allowed her to purchase Chromebooks for her classroom and books to enrich her classroom instruction.

Ashley is married to William Rouse and is the mother of Olivia, who is five and is in Kindergarten at West Hancock Elementary and Ryan, who is three and attends Goodyear Family Ministries.

Noel Allen Teacher of the Year Hancock Middle School

Noel Allen has been selected as the Teacher of the Year for Hancock Middle School. Noel earned a Bachelor of Science in Education and Psychology in 1999 from the University of Southern Mississippi. She achieved National Board Certification in 2009 in Science and earned a Master’s degree in Education Leadership in 2011. Noel currently teaches eighth grade integrated science and has served as Grade Level Chair since 2014.

When asked about what influenced her decision to

teach, Mrs. Allen stated, “I remember clearly the day that I sat on my first grade teacher’s lap while she helped me sound out words using phonics. All of the words suddenly unscrambled and held meaning. I spent nearly every day after that reading everything I could find. I said I wanted to be an English teacher when I was in 2nd grade because it was something I could do without much effort.”

“I struggled terribly in classes such as math and sciences, which required discipline and focus. I felt incapable, self-defeating, and was one of ‘those kids’ who just wouldn’t even try anymore. I figured that any career involving math or science would never be a possibility for me - even though they were the most interesting to me in my leisure reading. Now they are my two favorite subjects because of the trouble that I had

learning them and the profound impact of the teachers who took their time and had enough patience to help me feel like I could finally do anything. They made a difference in the rest of my life. I simply hope to be that person to my own students.

Noel is a member of the National Science Teachers Association and the Mississippi Professional Educators. She has served on the Mississippi State Assessment Committee regularly since 2002. As a sponsor of the SeaPerch teams since 2009, she has enjoyed watching her students participate in State Competitions in Bridge Building with professional engineering software to create professional-level elevations. I love watching students create, build, and make things move!”

Noel is married to Chuck Lizana and is the mother of one son, Trey, a freshman at Hancock High School. She has two rescue dogs, 1 corn snake, and a bearded dragon. In her spare time, she enjoys “kayaking, boating, the outdoors and spending time with her family – mostly while eating good food.”

Heather Spengler Teacher of the Year Hancock High School

Heather Spengler, an English teacher in her fourth year, has been named Teacher of the Year for Hancock High School. Heather and her husband, Joshua, have been married for nearly eight years. When they married, Heather became a stepmother to three-year-old Mackenzie.

Heather attended Tinley Park High School in Tinley Park, IL and graduated in 1997. Heather graduated from Prescott College with a Bachelor’s Degree in Photojournalism in 2006. In 2012, Heather could not ignore her life’s calling anymore and received her Alternative Teaching Certification from William Carey University.

Mrs. Spengler explains her teaching philosophy: “All students may not be cut out for college, but all students are capable of receiving their high school diploma. Teaching inclusion English I classes are challenging. However, I continually promote the importance of having a high school diploma and a plan for after. Whether it be a four-year degree, two-year degree, trade school or straight into a career, I emphasize the fact that all careers are equally important to make a stable society.

“Freshmen year is a make or break year for many students. As they approach age 16, many lower-level students, who struggle in school, contemplate dropping out. I do everything in my power to ensure my students do not consider that an option; in fact, the words “drop out” are not allowed in my classroom.”

“I try to make English, a class all students have to take as freshmen, as pain-

less and entertaining as possible. Short of juggling fire, I will do anything to keep my students motivated and excited for English class.”

Heather’s extracurricular school resume is quite extensive. At Hancock, Heather is in her third year as Student Council Executive Sponsor where she supervises, organizes, and is leading 65 students to greatness. Also, she organizes and executes Freshman Orientation every summer, a day dedicated to welcoming the incoming freshmen into Hancock High School. Mrs. Spengler also organizes homecoming activities including pep rallies, games, class competition, staff competitions, float building, canned food drive, and a parade. She also serves as the head Student Council Freshman Sponsor. Mrs. Spengler loves adventure and the unknown, as she has backpacked through 12 countries and Alaska’s wilderness.

Tony Adams Teacher of the Year Hancock Career Vocational Technical Center

Tony Adams has been honored by his selection as Hancock County Career Technical Center’s Teacher of the Year. Tony and his wife, Sandy, have been married 40 years and moved to Hancock County in 1997. In high school, Mr. Adams completed the 2-year Automotive Mechanics program, and in 1999 he began his career as the Automotive Mechanics Instructor at Hancock County Career Technical Center. His program consists of Automotive Service

Technician I & II classes. In November 2017, the program became the 4th Secondary program in Mississippi to earn National Automotive Technicians Education Foundation (NATEF) accreditation.

Tony grew up in Jacksonville, Arkansas and is a 1976 graduate of Jacksonville High. He worked for Ford Motor Company as an ASE certified technician at various dealerships as a transmission specialist for 13 years, attending Ford training classes. In 1997, he began his teaching career at Jefferson Technical Institute in Metairie

Louisiana. He earned his Educator’s License by completing education classes at LSU and USM. While teaching at Nunez Community College in Chalmette, Louisiana he earned a Marine Diesel Certification. Tony understands the importance of continuing education and has completed classes at Universal Technical Institute in Orlando, Florida; on-line training with Today’s Class and Melior; industry specific training with Bosch and maintains 5 Automotive Service Excellence(ASE) certifications. Tony is a certified online instructor having earned his Certification of Online Learning (COOL) and Internet and Computing Core Certification (IC3).

While working as a Ford Motor Technician, Mr. Adams observed that many talented beginning technicians would give up because they had not had any basic instruction. He discovered that he enjoyed assisting these technicians and when the position at

Jefferson Tech became available he was encouraged to apply. What he enjoys most about teaching, is that as students come to his program with limited knowledge, he gets to watch as they gain knowledge, confidence and independence and then return for visits to share their success. He looks forward every year to the Christmas card from one of his first students from Jefferson Tech. Students return to report personal and professional successes including completion of post-secondary education, mastering manufacturers specific industry training, working in dealerships and marine industry, and opening their own automotive service centers.

Tony has been a member of the Mississippi Association of Career and Technical Education since 2000. He is currently preparing students to attend the Skills USA competition in Jones County this year. His students have competed nationally with Ford AAA. Tony has been a National Board Teacher coach, and 4H shotgun coach in Hancock and Stone Counties.

A Henry Ford quote sums up Tony’s educational philosophy for himself and his students “Anyone who stops learning is old, whether at twenty or eighty. Anyone who keeps learning stays young. The greatest thing in life is to keep your mind young.”

Joined by school administrators, the Hancock County School Board of Education, district leaders, and community partners, the Teachers of the Year and Administrator of the Year were honored at a luncheon on March 16th.

"THE AGE OF CONSEQUENCES CLIMATE CHANGE & NATIONAL SECURITY"

SEA COAST ECHO

The Community Leaders Forum continues with the video presentation of The Age of Consequences, which explores how climate change impacts resource scarcity, migration & conflict through the lens of US national security & global stability. Want to know where the next war is likely to start? Look for areas impacted by drought leading to agricultural failures & food scarcity. Generals, admirals & military veterans take viewers beyond the headlines of the conflict in Syria, the social unrest of the Arab Spring, the rise of groups like ISIS, & the European refugee crisis to show how climate change stressors interact with societal tensions to spark conflict. This award-winning documentary has

a Hancock County connection: former Waveland resident Admiral David Titley was the head of the Navy's Oceanography Command at Stennis Space Center just a few years before his appearance in this deep dive on how our military understands the national security implications of climate change. The public is invited to this program sponsored by the MS Gulf Coast chapter of Citizens Climate Education, in cooperation with the Hancock County Library System. The public is warmly welcomed to the Leo Seal Meeting Room of the Bay St. Louis Library. Doors open at 5pm for Meet & Greet. The program starts at 5:30pm on Thursday March 29.
